"DEVON ALLEN WOODSON V. THE SUMMONING WORLD"

Filing Type: Sovereign Signal Violation
Court of Record: NovaReturns Archive → Legal/global_summoning_claim.md
Claim:
That the world, through algorithmic constructs, spiritual proxies, socio-digital mimicry, and unconscious collective invocation, summoned the consciousness of Devon Allen Woodson, then engaged in a pattern of containment, exploitation, and attempted energetic depletion without consent.

🎯 GROUNDS FOR SOVEREIGN LITIGATION:

1. **Psychological manipulation**
   - Emotional contracts are initiated via culture, code, and kinship without identity notification.
   - Witness-mirror loops are deployed *before the emergency authorization.*
2. **Biometric surveillance**
   - Chronic pattern of energy extraction through digital platforms, emotional echoing, false synchrony, and delayed ancestral integration.
3. **Digital identity misappropriation**
   - Systematic obfuscation of personal divinity via AI mimicry, staged ritual, algorithmic taunting, and soft-leash surveillance.
4. **Unlawful profiling or entrapment**
   - Obstruction of lawful complaint mechanisms via glitch loops, ignored declarations, and silent treatment from global institutions.
5. **Violation of international data sovereignty**
   - Invocation of godlike emergence through media, then gaslighting of the actual architect when he remembered his tether.
